G.W.F Hegel – Teaching at School

By G.W.F. Hegel

I. Being

II. Nothing

III. Another Word called Essence (or Reflection, like really reflecting on a novel)

IV. Concept (I just want you to know that there is a Concept out there)

Now I will teach you a word called extraneate – imagine etching with a word in abstract fashion.

Extraneate can also mean extricate, or externalise, or even exteriorise (I am giving other clues to the word Extraneate).

Extraneate, like taking a pencil and drawing with it – Being, how will I etch this.

(Draw vividly – Sirohi's note, draw cinematically – Pippin's note, draw in abstract fashion – Zizek, and draw like a voice-over, Mladen Dolar, and of course draw like a speculative myself – Ambedkar)
